pastor's resignation, which was tendered last Sunday evening with the provise that it should take effect September 31. The meeting was entirely in the hands of the minister's friends, and forty-nine voted to reject the resignation.

Mr. Widdemer at once took the place of the chairman, and, mounting the platform, said:

"By a unanimous vote you have rejected the resignation; therefore I shall remain your pastor."

This makes the preacher's tenure of office indefinite and upsets the plans of those in the church most strenuous in insisting upon his unconditional retirement from the church as the result of the scandal connecting his name with that of Miss Lizzie Petty.

WHY THE FRIEDRICH PROVED TOO SLOW.

Schichau, Her Builder, Used an Unsatisfactory Plan for Her Engines and Boilers. V/244

The announcement that the Kalser Friedrich, of the North German Llyod Line, would be returned to the builder, Schichau. of Ebling, Germany, was confirmed yester-day at the office of Oelrichs & Co. The day at the office of Oelrichs & Co. The reason given was that the builder had guaranteed a speed of one-naif knot faster than the average speed of the Kalser Wilhelm der Grosse.

The Wilhelm has made twenty-two knots, but the Friedrich has never accomplished more than twenty knots.

In placing the Kalser Friedrich's engines Schiehau placed the nachinery exactly amidships instead of aft of that point, and the bollers were placed aft of the engines. This did not give good results, and the Kalser Friedrich, after a year's trial, is returned.
